

TIMBER FLOOD DEFENDER DOOR

BROCHURE 2021

WHY CHOOSE THE TIMBER FLOOD DEFENDER DOOR?

The Timber Flood Defender door is a highly engineered flood defence product manufactured out of sustainable Engineered Accoya.

Accoya is extremely durable and resistant to water, with state of the art locks and M3's unique flood protection seal give it unrivalled flood protection qualities.

In addition, the Timber Flood Defender door is also thermally efficient with an A energy efficiency rating combined with double glazing in a range of options and a choice of any standard RAL colour option or just a natural wood finish.

The real appeal of a timber flood door is the ability to match traditional styles and appearance whilst still maintaining dependable flood protection.

- Passive long term solutions
- Available in any standard RAL colour
- Option to build into new property
- Easy to open and close by one person
- Tested and kitemarked to BS 851188-1:2019
